- [Asset access \(I want to hold my stuff\)](#)

What does Logistics do

Logistics manages the physical inventory of Flüüffs assets, and as such is an important backbone of the convention.

The primary goals of Logistics are

- To provide a means of storage for physical assets required to run a convention
- To protect physical assets from environmental or mechanical impacts while in storage.
- To regulate access to assets and keep track of ownership and any Bailees.
- To provide consultation on the aquisition of new assets as well as retirement of existing assets.
- To adequately destroy or decomission retired assets.

Asset management (I want
to see my stuff)

New asset acquisition (I want more stuff)

Asset access (I want to hold
my stuff)
