Reserve Iventory (i want my stuff at the convention)

every year you will need your inventory for the convention how will we do this ?

Step one: First you see what you acutely have, to do this you will find the right document (logistics spreadsheet) in the drive Hod resources.

you can do this alone or ask to do this with a representative from logistics present.

Step two: you select the inventory you need and email the list of what you need to logistics

we ask you to only select what you need and not just blanket order everything please thing of our fellow staff members.

Step three: logistics will go over the requested items and will notify you the oke or if anything is amiss.
